

Name _____

Date _____ Period ____

My Favorite Thing

Mr. Cooper's Globalization Project - Part 1

Directions: Answer all 11 questions in complete sentences. Research your product online. If multiple companies produce your product, choose the largest and most well-known company to focus on.

Researching Tip: add specific words to the name of your product to find results that are relevant to tracing its production cycle. Terms such as production, production cycle, supply chain, factory/facility/plant, etc. The website <http://www.designlife-cycle.com/> is a good resource.

1. What consumable product are you researching? _____
2. What company creates this product?
3. Where is this product made? (Where is the factory in which the product is put together?)
4. Where are the workers that build this product often from?
5. Where is this product sourced? Where do they get the raw materials to build this product? (How does the company get the smaller items that make up the larger item? ex, cotton for your shirt, or titanium for your phone?)
6. What impact does the creation of this product have on the environment?
7. Why is this product created? (Why is their demand for this product among consumers?)
8. If you wanted to buy this product, where would you go?
